List of people who contributed to the development of the NMME seasonal Forecast system

**NCEP/CPC:**
Huug van den Dool, Qin Zhang, Emily Becker, Jin Huang, Li-Chuan Chen.

**NCEP/EMC:**
Suranjana Saha and Malaquias Pena, Patrick Tripp

**University of Miami**
Ben Kirtman, Dughong Min, Johnna Infanti

**COLA/GMU:**
Jim Kinter, Kathy Pegion, and Dan Paolino

**NASA:**
Siegfried Schubert; Zhao Li, David Considine

**GFDL:**
Gabe Vecchi, Tony Rosati, Rich Gudgel, Bill Stern, Xiaosong Yang, Seth Underwood

**Environment Canada:**
Benoit Archambault, Bertrand Denis, Juan Sebastian Fontecilla, Viatcheslav Kharin, Jacques Hodgson, William Merryfield, Badal Pal, John Scinocca, Woo-Sung Lee

**Princeton University:** Eric Wood, Xing Yuan and Joshua Roundy.

**NCAR:** Eric Nienhouse, Joe Tribbia, Julie Caron, Don Middleton, Steve Yeager.

**IRI:** David Dewitt, Mike Tippett, Michael Bell, M. Benno Blumenthal and Shuhua Li.

**CPO:** Annarita Mariotti, Dan Barrie, Heather Archambault, Will Chong

**NSF:** Eric DeWeaver

**DOE:** Renu Joseph
Questions for Breakout Discussions

• What are the needs for a subseasonal NMME prediction system to be useful to your community (both re-forecast and real-time components)?

• What are the data needs (e.g. format, frequency, flow, access, variables, etc.)?

• What needs are critical vs. negotiable?

• What is your ideal system given no limitations on resources?

• How would you use the system you envision?

• What are the key benchmarks you consider necessary to demonstrate success of such a system?

• What are the feasibilities of deploying a NMME subseasonal forecast system including technical, data, and engineering aspects?
