

Climate Program Office Review

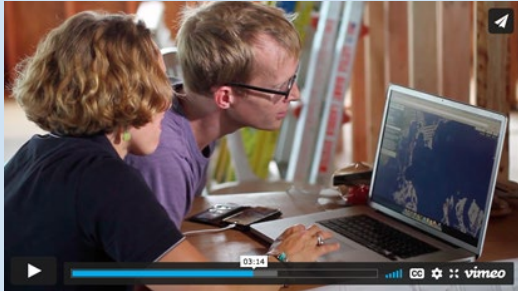

May 24-26, 2022

Pre-Recorded Presentation
Introducing Review Activity Area 2:
Climate and Societal Interactions

Claudia Nierenberg, Chief (along with Sean Bath, Nancy Beller-Simms, Genie Bey, Chelsea Combest-Friedman, Marina Cucuzza, Jennifer Dopkowski, Caitlin Simpson, Amanda Speciale, Bhaskar Subramanian, Lisa Vaughan, Ariela Zycherman)

CPO Climate and Societal Interactions Division

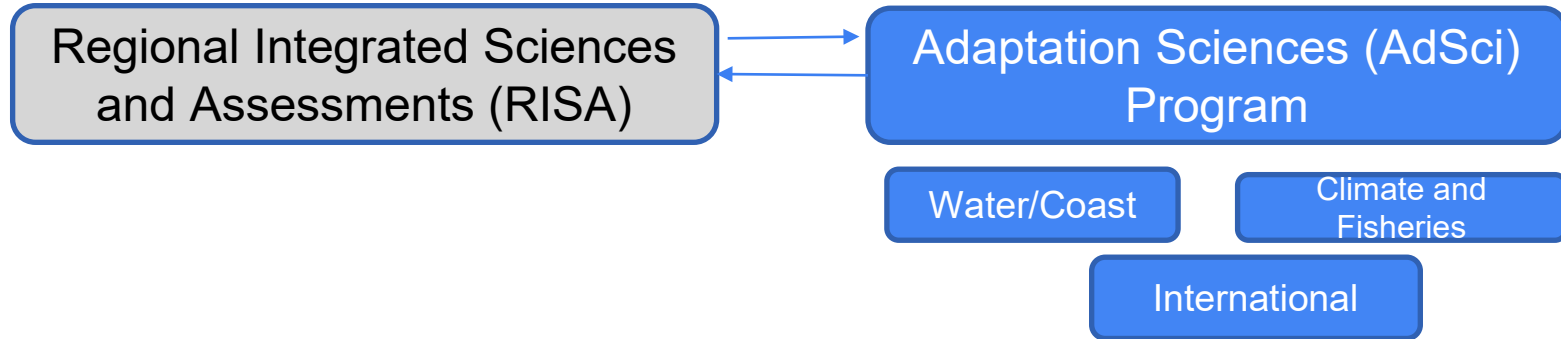

Activity Area 2. Climate and Societal Interactions (CSI)

Support societally relevant and interdisciplinary climate science focused on adaptation to reduce vulnerability and risk

- Identify and advance opportunities for use of climate knowledge and information
- Enhance community resilience
- Connect innovative science to preparedness, adaptation and resilience challenges
- Lead regional and national assessments
- Support research that includes the private sector, NGOs, interdisciplinary teams and the social sciences at large

The Human Dimensions of NOAA's "Science, Services, and Stewardship"

- ***Influencing a generation of science policy scholarship***
 - ***Putting engagement scholarship into practice to support capacity building for adaptation and planning***
 - ***Strengthening partnerships to support peer to peer learning and network development***

Pre-recorded Presentations

- **Regional Integrated Sciences and Assessments Program**,
Presenter: Chelsea Combest-Friedman (Caitlin Simpson, Ariela Zyberman, Sean Bath, Genie Bey)
- **Adaptation Sciences Program**
- Presenter: Nancy Beller-Simms (Bhaskar Subramanian, Amanda Speciale)
- **Climate and Fisheries Adaptation (CAFA)**
Presenter: Jennifer Dopkowski, Marina Cucuzza
- **International Adaptation Activities**
Presenter: Lisa Farrow Vaughan, Alec Shub

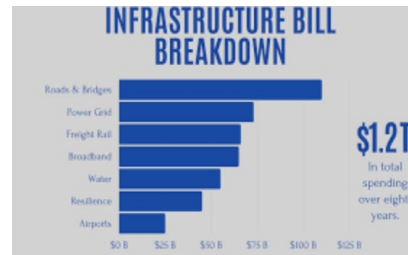

Other Key Messages

CSI is contributing to NOAA's ability to address new Administration Goals:

CSI science policy experts

- Co-chair agency and interagency working groups
- Lead parts of NOAA Social Science Committee; Service Deliv/Decision
- Author and review for NCA and IPCC
- Lead cross NOAA efforts (Blue Carbon, Equity)
- Lead cross NOAA services development
- Serve in prominent advisory functions (e.g. Future Earth, Water RF)
-and bring innovation back to the research announcements

Thank you!
